About the Speaker

Dr. Joseph Field

Joseph Field, DDS, FAAID, FICOI, FAGD, DABOI/ID has achieved a nearly unmatched level of skill in dentistry. He's an Elite Invisalign provider, California-licensed IV sedation dentist, and dental implant specialist with a focus on dental implants, esthetic restoration, and combining orthodontic cases with implant dentistry.

Dr. Field credits his success to his education, both past and present. After completing his B.S. Physiology at Brigham Young University, Dr. Field pursued his Doctor of Dental Surgery at the University of Southern California School of Dentistry. His passion for ongoing education has driven him to pursue several other designations which have expanded his expertise allowing him to provide the best quality patient care and clinical outcomes:

- Fellow of the American Academy (FAIID) of Implant Dentistry after completing the Graduate Maxi Course
- Fellow of the Academy of General Dentistry (FAGD)
- Fellow of the International Congress of Oral Implantologists (FICOI)
- Diplomate of the American Board of Oral Implantology / Implant Dentistry (DABOI/ID)

Dr. Field also remains a current member of several dental organizations including

- American Academy of Cosmetic Dentistry
- American Dental Association
- California Dental Association
- Academy of Osseointegration
- Alpha Omega Dental Society
- American Dental Association
- American Society for Dental Ethics
- Academy of General Dentistry
- American Association of Dental Research
- LDS Academy of Dentists

Due to his experience and exceptional skills in dentistry, Dr. Field is able to restore patients' smiles even in the most extreme cases. With a combination of cutting-edge dental implant technology like iTero digital scanning for perfectly fitting restorations and CERAC for same-day dental care, plus state-of-the-art esthetic techniques, Dr. Field helps his patients achieve permanent tooth restoration with single, multiple, or full-mouth dental implants with either titanium or zirconia implants.

When he's not working with patients, Dr. Field dedicates his time to speaking and educating the dental community. Dr. Field is a guest faculty member at USC, where his focus is giving back to new dentists coming into the field by teaching full mouth rehabilitation and IV sedation courses. He's also a regular speaker for Invisalign and travels nationwide to speak about his knowledge and expertise. He's a frequent speaker for multiple implant companies and shares his extensive skills with other dentists to teach them implant techniques.

A Los Altos native, Dr. Field takes pride in getting to know his patients, understanding their needs, and giving back to the community: when he's not providing his patients with the best, most modern dental implant and Invisalign treatment, you'll find Dr. Field hosting [free dental implant seminars](#) for the local community, and joining up with the entire PCCD team in their philanthropic efforts, including offering [free dental care to Bay Area veterans](#).

When he's not working, Dr. Field enjoys contributing to dental journals and pursuing his interests in photography and website design. Outside the office, he enjoys golfing, playing basketball, hiking, camping, attending sporting events, and spending time with his family.
