| 3:00 pm | Summary and Q&A |

Course Description

Life-threatening emergencies can occur anytime, anywhere and to anyone. Such situations are somewhat more likely to occur within the confines of the dental office due to the increased level of stress, which is so often present.

In this course Dr. Malamed will discuss the areas which are considered vital to a proper understanding of Emergency Medicine: prevention, preparation, and recognition and management.

The first session will include a discussion of preparation involving the office and staff; including a thorough review of the office emergency kit (drugs and equipment). The second session will include the recognition and management of specific emergency situations followed and including the management of unconsciousness, respiratory distress, seizures, drug-related emergencies and chest pain; including cardiac arrest and use of the AED.

This course is designed for all members of the dental office staff, not just the doctor and chairside personnel. Situations discussed here can happen outside of the dental environment as well as in the office. Everyone should be prepared!

About the Speaker

STANLEY F. MALAMED, D.D.S. / www.drimalamed.com / malamed@usc.edu

Doctor Malamed was born and raised in the Bronx, New York, graduating from the New York University College of Dentistry in 1969. He then completed a dental internship and residency in anesthesiology at Montefiore Hospital and Medical Center in the Bronx, New York before serving for 2 years in the U.S. Army Dental Corps at Ft. Knox, Kentucky. In 1973, Doctor Malamed joined the faculty of the Herman Ostrow School of Dentistry of U.S.C., in Los Angeles, where today he is Emeritus Professor of Anesthesia & Medicine. Dr. Malamed is a Diplomate of the American Dental Board of Anesthesiology, as well as a recipient of the Heidebrink Award [1996] from the American Dental Society of Anesthesiology and the Horace Wells Award from the International Federation of Dental Anesthesia Societies, 1997 (IFDAS).

Dr. Malamed has authored more than 140 scientific papers and 17 chapters in various medical and dental journals and textbooks in the areas of physical evaluation, emergency medicine, local anesthesia, sedation and general anesthesia. In addition, Dr. Malamed is the author of three widely used textbooks, published by CV Mosby: ***Handbook of Medical Emergencies in the Dental Office*** (6th edition 2007); ***Handbook of Local Anesthesia*** (6th edition 2012); and ***Sedation - a guide to patient management*** (5th edition 2010) and two interactive DVD's: ***Emergency Medicine*** (2nd edition 2008) and ***Malamed's Local Anesthetic Technique DVD*** (2004) (edition 2 – 2012)

In his spare time, Doctor Malamed is an avid runner, exercise enthusiast, and admits an addiction to the New York Times crossword puzzle, which he has done daily since his freshman year in dental school.

Several state licensing boards are requiring courses on medical emergencies to reduce liability.
