***~ Includes the NSBDE required Infection Control Course  
for Dentists, Hygienists & Dental Assistants***

## **Course Description:**

Maintaining OSHA dental office compliance is the responsibility of the entire dental team. Dental offices are required to implement and maintain all the necessary infection control and safety systems as required by OSHA. This class provides valuable information on the regulatory requirements and offers practical suggestions on how the dental team can work together to ensure a mutually safe work environment for employees and patients.

## **Course Objectives:**

- Understand the differences between CDC guidelines and OSHA Regulations
- Understand the OSHA Bloodborne Pathogen Standard
- Understand OSHA requirements and mitigations strategies for COVID-19
- Discuss the importance of a written office-specific infection control program and OSHA regulatory documents
