OSHA & Infection Control 2024: Annual Compliance Training

***~ Includes the NSBDE required Infection Control Course
for Dentists, Hygienists & Dental Assistants***

Course Description:

Maintaining OSHA dental office compliance is the responsibility of the entire dental team. Dental offices are required to implement and maintain all the necessary infection control and safety systems as required by OSHA. This class provides valuable information on the regulatory requirements and offers practical suggestions on how the dental team can work together to ensure a mutually safe work environment for employees and patients.

Course Objectives:

- Understand the differences between CDC guidelines and OSHA Regulations
- Understand the OSHA Bloodborne Pathogen Standard
- Discuss the importance of a written office-specific infection control program and OSHA regulatory documents

About the Speaker

Dr. Marie Fluent

Marie T. Fluent, D.D.S., CDIPC

Dr. Fluent is a graduate of the University of Michigan School of Dentistry. Her dental career spans 35 + years and includes roles as dentist, both as an associate and practice owner, infection control coordinator, office manager and dental assistant. She now lectures, writes and consults extensively on infection control, OSHA compliance, eye safety, and antibiotic stewardship in dentistry. Dr. Fluent is passionate and deeply committed to improving dental infection control and patient safety. Through her writing, webinars, and invited lectures, she has educated thousands of dental professionals and students nationally and internationally. For more information, see www.mariefluent.com
