# Timing of Implant Placement: Challenges and Opportunities

This lecture will include an overview of anatomical characteristics per arch sextant focusing on requirements for ideal implant placement and challenges to achieve it. It will further identify the benefits, challenges and potential complications of immediate implant placement and crestal sinus floor elevation. Several representative clinical cases of immediate, early and delayed placement of bone level implants will be presented and discussed. It will conclude with the quality requirements for intraoral radiographs to optimally monitor implant integration.

## OBJECTIVES

- Understands the fundamentals of osseointegration and peri-implant tissues.
- Understand the requirements for successful implant therapy, per arch segment.
- Identify anatomical challenges for successful implant placement, per arch segment.
- Identify challenges and opportunities for immediate, early and simultaneous sinus floor elevation and implant placement.

## DR. CORNELIU SIMA

**DR. CORNELIU SIMA**, DMD MSc DSc, was born in Brasov, Romania, and earned his baccalaureate in science at Dr. Ioan Mesota National College, Brasov, majoring in mathematics and physics. He received his DMD from the University of Medicine and Pharmacy Cluj, his DSc in Oral Biology from Boston University, and his MSc in Periodontology from the University of Toronto. He was an Assistant Professor of Oral Medicine, Infection, and Immunity at the Harvard School of Dental Medicine, and Associate Periodontist and Implant Surgeon at the Harvard Dental Center between 2018-2022. Following his decade-long experience at the University of Toronto and Harvard University, he founded Precision Periodontics in Reno, NV in the fall of 2022. He is a diplomate of the American Board of Periodontology and the International Congress of Oral Implantologists. Dr Sima has over 30 publications including in Cell, Nature, Diabetes Care, Journal of Dental Research, American Journal of Pathology and Periodontology 2000, over 1200 citations, and multiple awards for excellence. Dr. Sima's research interests include inflammation resolution, healing, and regeneration, in vivo imaging, high-resolution diagnostics, and phagocyte-targeted therapeutics. His clinical activities focus on microsurgical approaches to soft and hard tissue grafting, implant site development and placement, and management of periodontitis/peri-implantitis associated with systemic co-morbidities.

### Registration Policy

- Registrations are taken on a first come, first serve basis
- Registrations are not considered final until payment is received
- Your registration will be confirmed by email within two weeks of receipt
- Partial payment cannot be accepted

### Cancellation and Refund Policy

- Cancellation made 30 days or more before the course starts: Full refund
- Cancellation made 15-29 days before the course starts: 50% of the course fee will be refunded
- Cancellation made 0-14 days before the course starts: No refund
- A \$25 administration fee will apply to all cancellations

Straumann reserves the right to cancel courses that do not meet minimum enrollment. The course fee will be refunded, in full, within two weeks of the cancelled course date. Attendance is not confirmed until attendee has received a letter of confirmation from the Straumann Education Department.
