

Northern Nevada
DENTAL SOCIETY presents

21st Century LASER-ASSISTED DENTISTRY – Standard Course, Participation Workshop & Certification

For DDS, DMD, & RDH

Presented by: **Anthony R. Cardoza, D.D.S.**

Practicing General Dentist since 2001, Member of the Academy of Clinical Technology, Fellow of the World Clinic Laser Institute

6 hours of required Continuing Education (NV & CA) credit

Thursday & Friday, November 20-21, 2025

Thursday: Dinner Meeting lecture (*required*) 2.0 CEUs

Friday Workshop Sessions: (2 options) {circle one} 4.0 CEUs ea.

- Session #1: 8:00 a.m. – 12:00 p.m. (*incl. Cont. Breakfast*)
OR
- Session #2: 12:30 p.m. - 4:30 p.m.

Atlantis Casino Resort Spa, Reno, NV
2nd floor conference center

HURRY, ENROLLMENT IS LIMITED!!

Thursday Evening: Synopsis, Objectives and Learning Outcomes

Synopsis: This presentation will contrast the daily challenges faced in the conventional delivery of a variety of dental procedures against the solutions offered through laser-assisted dentistry. This lecture is for the dentist/dental hygienist and covers various laser applications. These general applications include cavity preparations, various soft tissue procedures, endodontic preparation, and bony procedures such as crown lengthening and tori reduction. In addition, laser dental hygiene applications will be discussed as well. Examples of these procedures using both the diode laser and the hard tissue laser will be shown.

Objectives: Understand basic laser safety and physics. Learn clinical applications of dental hard and soft tissue lasers. Learn common laser dental hygiene applications .

Learning Outcome: Understand dental laser soft and hard tissue applications and clinical procedures for both the doctor and dental hygienist. Understand laser history, safety, physics, clinical applications and procedures in the dental office. Understand the different types of dental lasers available on the market today and be able to select the laser that best suits their need.

*(This presentation will contrast the daily challenges faced in the conventional delivery of a variety of dental procedures against the solutions offered through laser-assisted dentistry. **This lecture is for the dentist/dental hygienist** and covers various hard and soft tissue laser applications. Examples of these procedures using both the diode laser and the Er:YAG hard tissue laser will be shown.)*

Friday Sessions: Synopsis, Objectives and Learning Outcomes

Synopsis: Take your practice to a higher level integrating new laser technology. Improve your clinical and aesthetic results, while increasing your production, bottom line, and patient satisfaction. This program covers laser applications, safety, and physics. Participants will experience hands on laser applications for both soft and hard tissue including cavity preps, bone ablation, gingivectomy, and troughing for retraction using pig jaws and extracted teeth. The program brings together today's technology to give your patient a better dental experience.

Objectives: Understand basic laser safety and physics. Learn clinical applications of dental erbium and diode lasers. Use the laser (hands on) in a simulated dental environment using pig jaws and extracted teeth. Learning

Outcome: Participants will experience hands on lasers. The participant will have a thorough understanding of the clinical applications of the erbium and diode laser. Understand basic clinical applications of the erbium and diode laser and experience the feel of the laser in the participant's hands.

About the Speaker

Dr. Anthony Cardoza

Dr. Cardoza is a general dentist in San Diego California. Dr. Cardoza first incorporated dental lasers into his practice in 2001 for both hard tissue and soft tissue applications. Dr. Cardoza is a member of the Academy of Clinical Technology, and a Fellow of the World Clinic Laser Institute. Dr. Cardoza lectures extensively throughout the U.S. and Canada on the topics of both lasers and forensic dentistry.

About the Asst. Instructor

Kimberly Cardoza, BA, RDH

Kimberly Cardoza is a Registered Dental Hygienist and has been using dental lasers within her practice of dental hygiene for 25 years. She has certification in the Academy of Laser Dentistry (ALD), Academy of Clinical Technology, and the World Clinical Laser Institute (WCLI). She is a graduate of the Dental Hygiene program at Cerritos College (1996).

YOUR COSTS:

Tuition:	ADA/NDA/NNDS/NENDS/SNDS Member Dentist	\$ 750
	Member Staff Hygienist	\$ 650
	Non-ADA member Dentist	\$ 900
	Non-member staff hygienist	\$ 800
