Course Description: Cone Beam CT has become an essential diagnostic tool for general dental practice, yet many clinicians limit their evaluation to the area of interest. Is this truly the full spectrum of benefits that CBCT imaging offers?

This 1-hour course is designed to prepare you to systematically review CBCT scans using the CS 3D imaging software. We will focus on reviewing different anatomical structures visible on CBCT scans. We will also discuss efficiently manipulating CBCT scans using different views in every scope of practice.

Registration Fee: \$50 for Members / \$125 for non-members

Register online: <https://bestcardteam.com/NNDS/monthlydinner.php> or scan the QR code
